Prayer request

After the pandemic, we have had to address the decrease in our membership. We also need to train our future leaders of the next generation. Not only must we reach out to and welcome new members, but we also need to prepare our coworkers to take charge of the services.

2. We emphasize reaching out by telephone and have asked coworkers to form a Revival Prayer Group (RPG) with members. **May God help us to build up more RPG groups.**

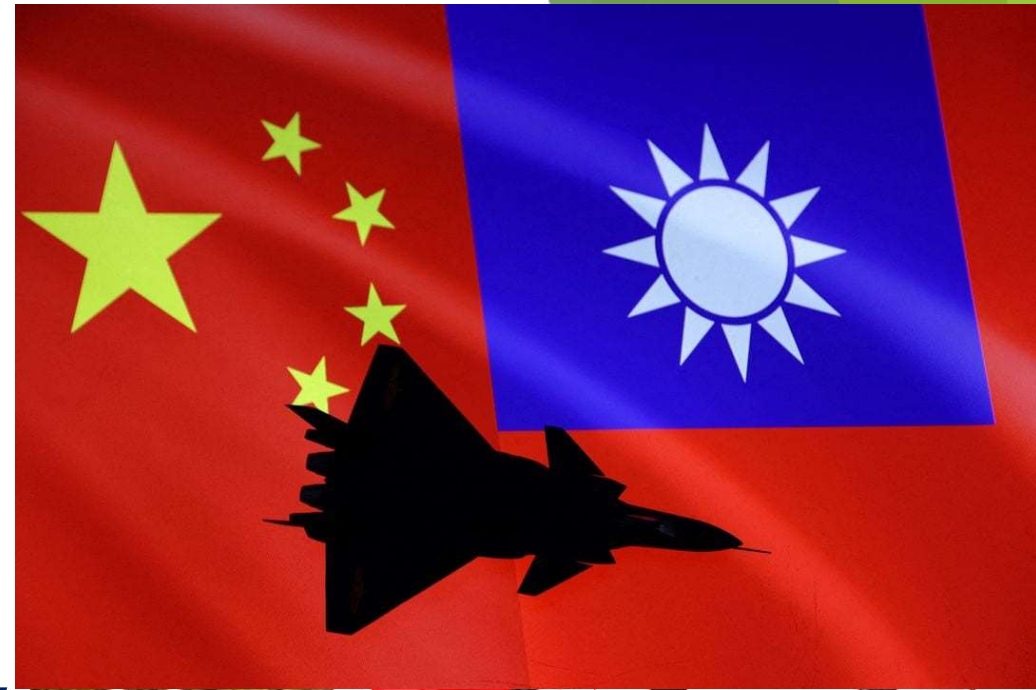

3. We are still looking for a native English teacher to lead our Bible study and help improve the English proficiency of our members, especially our coworkers. May God help our English Bible study be more effective.

4. After the presidential election, relations with mainland China have worsened, and the risk of war is now far greater than before. Let us pray to God to reduce the tension between both sides, and may the new president implement policies that lead to a peaceful solution.

Rising tension between
China and Taiwan
